

Dear Friends,

In the February 20 bulletin, I wrote about the feasibility study that was conducted to assess the financial support for our *Making Room at Our Table* process. Based on the results from that study, architect Murray Mack presented a number of schematics to the Planning and Design Committee earlier this month. He will refine these plans so they can be shown to those individuals who participated in the focus groups last fall. Please check next week's bulletin for meeting times. Once the focus group participants have weighed in on the possible plans, the architect will incorporate their suggestions into revised plans that will be shared with the broader community.

Maintaining facilities was ranked first in terms of importance in the feasibility study. The parish Building and Maintenance Committee will meet next week to discuss the major issues that need to be addressed in terms of our physical plant. So, we are moving ahead.

If you are unfamiliar with *Making Room at Our Table* or would like to review all the updates on the process, go to the parish web site at www.churchstjoseph.org under the Communications tab. Just click on "Planning" and then *Making Room at Our Table*.

Blessings on your week!

In Christ's peace,

Fr. Joseph, O.S.B.
